ENVIRONMENTAL POLICY

Falkon Security (Company) understands that care for the environment and ESG is an essential part of conducting its business operations in full compliance with ISO 14001:2015 as due to very limited impact on environment from controlled by Company operations and integrated relevant parts of EMS with other ISO 9001:2015 and ISO 45001:2018 standards to assure quality and reliability of our services in a safe manner with reduction of environmental footprint.

The protection of the Environment is a priority with company work and we recognise our responsibility for it by use best practice to reduce work-related driving with hire of local residents when possible. In implementing this policy, Company is committed to:

• Maintain, and communicate an effective Environmental Management System that meets ISO 14001:2015 (equal to AS/NZS/ISO 14001:2016) requirements, to ensure risks to the environment are identified, assessed, and appropriately eliminated or controlled for continual improvement with aim to reduce driving when possible as provision of work zones controlled by our clients;

• Seek the ways to reduce the consumption of resources, including energy and water by employees / contractors who implement and / or could have an impact on EMS;

• Promote EMS awareness among employees and contractors via definition of roles and responsibilities, Company policies and EPA issues relevant to their activities;

• Establish and review environmental objectives and targets to meet company obligations and ensure continual improvement through provision of security services and occasional basic cleaning with a shared responsibility for EMS performance;

• Comply with all applicable environmental legal Acts, Regulations, Codes of Practice, Standards, and other requirements as well as to meet the needs and expectations of clients, employees, interested parties and the community;

• This Policy will be reviewed on a regular basis to align with Falkon Security (Company) Strategic Plan and organisational goals and overarching integrated QHSE Management Systems Policy Statement.
